FIRST CLASS PARKING

POS Barcode reader Platinum Modular

The POS Barcode reader Platinum Modular is suitable for easy reading of short-term parking tickets and subscriber cards with barcode at the Point-of-Sales

- Nicely shaped and compact barcode reader
- Comfortable handling even with intensive use by a particularly handy gun grip design
- The scanner does not contain moving parts and is one of the most robust universal scanners currently available on the market.
- Red LED light to align the reader to the ticket
- Green LED as confirmation for correct reading
- Reading distance up to 40 cm
- USB cable for connecting to the operating PC or database server of the parking system
